

My Priorities

Affordable Homes

- Stabilize the cost of purchasing or renting a home by addressing the root causes of Atlanta's steep housing shortage.
- Streamline the approval process for residents and builders, making it faster and easier to build new homes.
- Fight to remedy historical racial injustice in housing and ensure all Atlantans have access to stable, affordable places to live.

Safe Transportation

- Fix and maintain the roads we have instead of endless highway expansion.
- Invest in street safety upgrades to protect drivers, cyclists, and pedestrians and combat the epidemic of deaths and injuries on our streets.
- Complete the Beltline loop, including the trail and light rail, that Atlantans have been promised, invested in, and voted for.

Livable Neighborhoods

- Empower residents to open small, neighborhood-scale businesses, enabling and promoting walkable communities.
- Make Atlanta the best place to raise a family through investments in early childhood education and public safety.
- Ensure neighborhoods grow without destabilizing change, safeguarding their unique charm while making room for new opportunities.
